

**Free
routine dental
and optical
cover**

Can your business afford not to have private health cover?

Having key staff absent from work can have a huge impact on small businesses. This is one of the main reasons small companies buy private health insurance – to help avoid high business costs if staff have to wait for treatment on the NHS.

At Aviva, we've teamed up with Anthony Wakefield & Company to provide your business with an exclusive offer on Solutions, our award-winning private health insurance cover.

Solutions is our flexible SME private health insurance product, that's been designed with your business needs in mind. It has a range of options you can pick and choose from – that way you can choose the cover that's right for your business, at a price you can afford.

What's more, every Solutions policy includes BacktoBetter, our innovative clinical case management service for musculoskeletal conditions (such as back, neck, muscle or joint pain) as standard.

BacktoBetter is a unique service that can help your employees recover faster, whatever path their treatment requires – keeping your productivity levels up and claims spend down.

Plus, when taking out a policy through Anthony Wakefield & Company you'll not only receive the routine dental and optical option free of charge, but you'll also get the 28 day in-patient psychiatric cover for free too – these options are usually charged at an additional premium.

They can also arrange for discounted Executive Health Screening from Nuffield Health – meaning your employees can find out the real state of their health, and you can save over 50% on the standard cost.

To find out more about how private health insurance or executive screening can help your business please speak to Robyn on 01306 734100 or email rh@anthonywakefield.com
